DR. B. GERZABEK

THE HOSPITAL

The enlarging and alterations to this three-storey building are now complete. Dr. B. Gerzabek, member of the Royal College of Surgeons of England; licentiate of the Royal College of Physicians, London, England; late assistant physician and surgeon to Vienna, Prague, Berlin and other hospitals and Royal Clinics, now has a most modern equipped hospital.

The patrons will find in this establishment all the requisites of a good hospital, in addition to comfortable and home-like surroundings.

We offer a cordial invitation to all interested friends to visit the hospital and judge for themselves the truth of our statements and ask them to inform their acquaintances of the exceptional facilities that we offer to the sick and suffering.

A personal visit of inspection will be welcomed.

DR. GERZABEK'S PRIVATE HOSPITAL

WAITING ROOM

A large, comfortable, well ventilated and sunny room, built according to the latest requirements of medical art and hygiene.

Polite and courteous nurses will give you every information about your relative or friend staying in our hospital, and conduct you through the institution if you wish to see it. We are confident of your approval and would welcome an early visit from you.

THE WAITING ROOM

CONSULTING ROOM

Our consulting room is large and of approved modern hospital construction, well ventilated and of cheerful aspect. It is equipped with all the most modern up-to-date appliances for the most thorough examination of our patrons.

Electrical apparatus for the examination of all nervous and muscular diseases, electrical and non-electrical appliances for the examination of blood pressure.

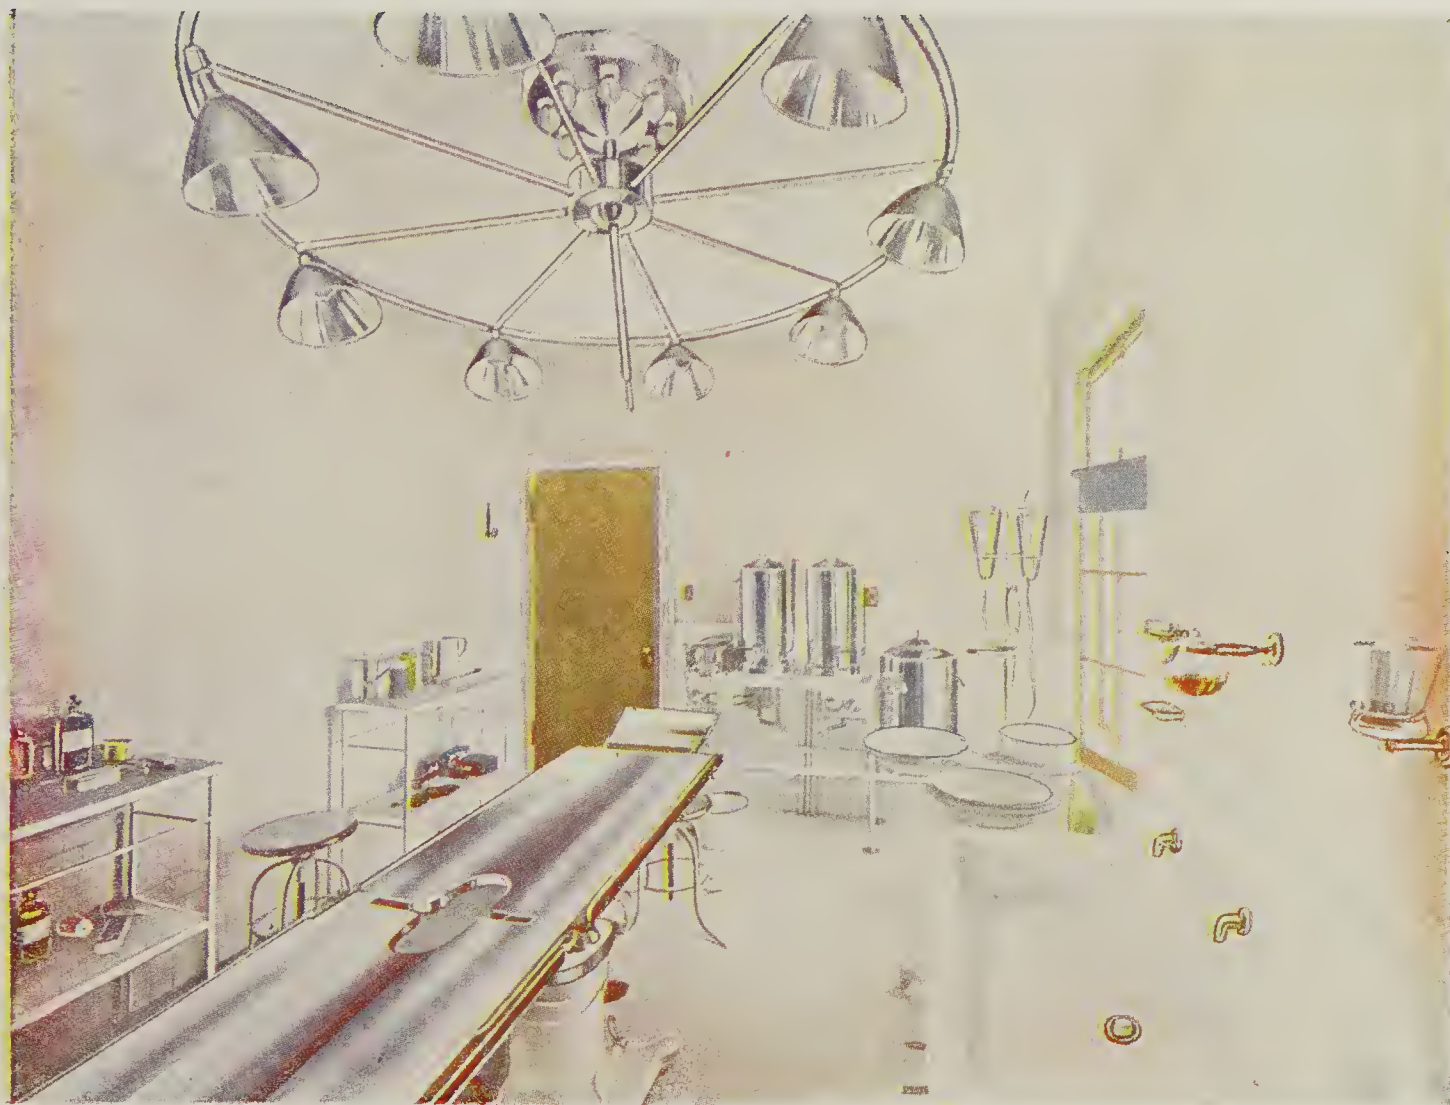

Also, adjoining the consulting room, we have an extra special dark room for the examination of throat, nose and eyes; and an up-to-date laboratory for chemical and bacteriological work; in adjoining rooms are many modern utilities which make this an up-to-date institution.

THE CONSULTING ROOM

OPERATING THEATRE

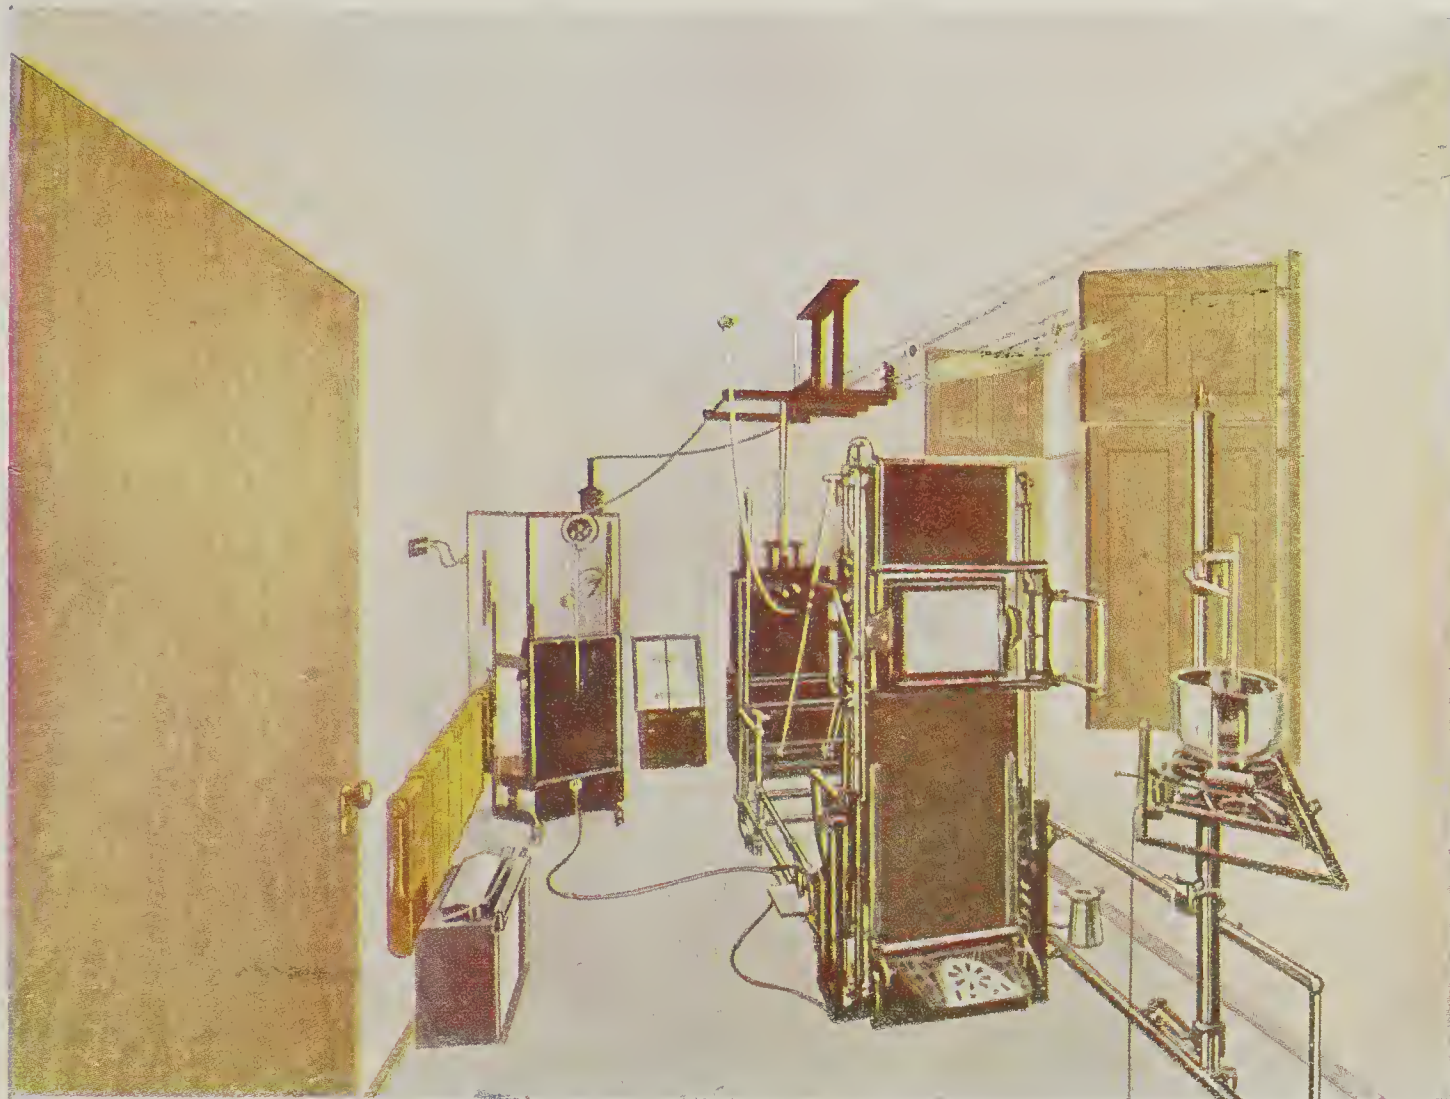

Spacious and well equipped, with all the latest appliances.
Suitable for large and small operations at any time of the day or
night.

THE OPERATING THEATRE

X-RAY

X-Ray room, one of the largest, strongest and best equipped on this continent, equipped not only for screening work but also for taking and developing pictures for stereoscopic work, which is very advantageous for both physician and patient.

THE X-RAY ROOM

THE DISPENSARY

This auxiliary is a great boon to both the in and out patients who can here obtain their medicines and have them compounded from drugs of the best and purest kind by the doctor himself. It is not compulsory to have your prescription filled here, yet it is a great convenience, of which the patients like to avail themselves.

THE DISPENSARY

THE DRUG STORE

Our capacious drug store is supplied with all the necessary home and imported, pure and best raw drugs, from which our capsules, pills and mixtures are compounded by the doctor himself, or under his personal supervision for his institutional dispensary, his hospital, in and out patients, and for mail orders.

SOME OF THE STAFF

The head nurse is the lady doctor—nice, polite and attentive to everyone. Our entire staff of nurses are thoroughly trained, chiefly by ourselves.

The patients always call them “angels of the hospital.” We are convinced you will really find them sweet, good and true angels of our institution.
